

NethServer 6 - Enhancement #1824

httpd-admin: check session expiration time

04/02/2013 04:56 PM - Giacomo Sanchiotti

Status:	CLOSED	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	nethserver-httpd-admin	NEEDINFO:	
Target version:	v6.4-beta1		
Resolution:	REJECTED		
Description			
Logged sessions expire quite often (2 or 3 hours ?).			
Check default expiration time and set to reasonable value.			

History

#1 - 04/19/2013 06:50 PM - Davide Principi

- Status changed from NEW to 4

The cookie set by *server-manager* is a *session cookie*. It should be the client that establishes when the session expires.

Perhaps a given cookie age is less ambiguous. We can set it by default to 8 hours (1 day of work...)

What do you think?

#2 - 04/29/2013 04:54 PM - Giacomo Sanchiotti

- Status changed from 4 to 6

The cookie also expires when the web server is restarted.

I think this is the right behavior.

Closing as WONTFIX.
