<b>Description</b>			
Read/Write labels are not visible in SharedFolder UI interface, under the ACL tab.			

### History

#### #1 - 04/17/2013 04:22 PM - Davide Principi

- Due date set to 04/17/2013
- Status changed from NEW to ON\_DEV
- Assignee set to Davide Principi
- Start date set to 04/17/2013
- % Done changed from 0 to 30

#### #2 - 04/17/2013 04:26 PM - Davide Principi

Labels are not added as DOM text nodes when an ACL row is created

#### #3 - 04/17/2013 06:24 PM - Davide Principi

- Status changed from ON\_DEV to MODIFIED
- % Done changed from 30 to 100

The fix may cause a memory leak because initialized widget nodes are removed from the DOM on the subsequent *updateview* event, but a reference from the parent widget is kept.

#### #4 - 05/08/2013 12:00 PM - Davide Principi

- Status changed from MODIFIED to CLOSED
