

## NethServer 6 - Feature #2714

### Firewall: select default policy

04/09/2014 10:32 AM - Giacomo Sanchietti

<b>Status:</b> CLOSED	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 100%
<b>Category:</b> nethserver-firewall-base	
<b>Target version:</b> v6.5	
<b>Resolution:</b>	<b>NEEDINFO:</b> No
<b>Description</b> The firewall should implement two standard policies: <ul style="list-style-type: none"><li>- permissive</li><li>- strict</li></ul> Permissive policy will enable all traffic from green (loc) zone to red (net) zone. Strict policy will block all traffic from green (loc) zone to red (net) zone. Permitted traffic should be explicitly allowed.
