

NethServer 6 - Feature #2760

IAXmodem: configure email address for each modem

06/05/2014 06:14 PM - Stefano Fancello

Status:	CLOSED	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	nethserver-iaxmodem	NEEDINFO:	No
Target version:	v6.6		
Resolution:			
Description			
<p>The user should be able to select a custom e-mail address for each configured modem. Received faxes will be delivered to selected addresses.</p> <p>Add a new field inside the modem record. The value of the field can be:</p> <ul style="list-style-type: none">- a custom e-mail address (text input)- an already configured mail address (select box) <p>The implementation should also take care to create a script inside <code>/var/spool/hylafax/etc/dispatch</code>. The script must dispatch notification mails accordingly to configured rules.</p>
