- Status changed from *ON_QA* to *TRIAGED*

- Assignee deleted (*Giovanni Bezicheri*)

- % Done changed from 70 to 20

Bugs discovered:

- when creating a zone as origin or destination of a rule, the zone is not written on shorewall configuration files after that apply changes button was pressed,

- the green net is reported as "loc" in the shorewall configuration files but "loc" is not defined.

Some notes:

- it is not clear whether a rule is enabled or not in the rule list view,

- it is not possible to dynamically add members of a hosts group when setting the options about origin and destination of a rule.

#8 - 07/04/2014 10:33 AM - Giacomo Sanchietti

- Status changed from *TRIAGED* to *CLOSED*

- % Done changed from 20 to 100

Merged to master.

Development will continue on #2705
