

NethServer 6 - Enhancement #3372

WebTop: upgrade to upstream release 0405 and upgrade to upstream release z-push 2.2.8

03/29/2016 08:02 AM - Luca Gasparini

Status:	CLOSED	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	nethserver-webtop4	NEEDINFO:	No
Target version:	v6.7		
Resolution:			
Description			
Summary changelog for 0405:			
sonicle-webtop-groupware:			
<ul style="list-style-type: none">- [mail][fix] All search in addressbook does not lookup in all directories- [mail][fix] Again problems on contacts lookup for group *- [mail] bugfix: attachments do not show if message is inside a folder with quotes in its name- [mail] bugfix: deleting from opened mail, using its own button, did not move to trash- [mail] bugfix: opening draft for edit containing recipients, without touching anything, would always prompt "are you sure" on close- [mail] feature: manual seen state user option in the advanced tab, will not automatically set seen viewed messages- [mail] use double quotes around tag names instead of single quotes, to better support mails with styles with single quotes- [mail] advanced search now features searching "anywhere"- [mail] Erroneously sends new mail notifications on folder with "Search new messages" disabled- [mail] Special folders don't show unread messages numbers- [calendar][fix] Typo in day name- [calendar][fix] Reminder email only work when user logs in- [calendar] Fix scheduler issue with event in specific timezone- [calendar] Fix DTSTART and DTEND bad format in ics- [contacts][fix] Typo in grid contextmenu- [contacts][fix] List clone function sets an empty category- [contacts] Added 10 custom fields to contact (db+form)- [contacts] Added new domain setting (customfields.label@X) in order to override default label- [contacts] Implemented excel and csv import wizard- [contacts] Added excel and csv libraries- [contacts][fix] Contact saved as a copy is not shown- [contacts] Fix category context menu not shown in read-only group- [contacts] Set * as default letter in contacts grid- [contacts] Added parameter (addressbook.letter) to override default letter in contacts list- [tasks] Fix typo in context menu and category tab- [tasks] Forgotten connection close- [tasks] fixed task reminder- [tasks] fixed context menu drm- [vfs] hide hidden files starting with a dot prefix- [vfs] hide hidden folders starting with a dot prefix- [vfs-pub] moved folder toolbar over grid, more visibile- [vfs-pub] added tooltips to buttons- [vfs-pub] added button to download-zip of all files- [fix] Import wizard fieldset items width in FF using fonts at 125%			
[mail] feature: automatically regenerate user sieve script at session startup, based on version of script			
[mail] bugfix: text/html parts with unsupported encoding are detected and parsed without charset specification			
[mail] stripped any scripting from mail html content before visualization [e.g. vtiger mails]			
[sieve] feature: automatically generate sieve script with antispam rule based on amavis header, skip older rules based on subject			

[sieve] added version string in initial comments of script generation, so to be able to later check current script version
[mail] bugfix: unchecked parent folders should show bold if children checked folders have any unseen messages
[mail] bugfix: unseen messages moved on an unchecked folder should not change unseen number to destination
[mail] bugfix: subfolders of sent do not save "from" column visibility
[mail] bugfix: not sending notifications for new messages under shared folders
[mail] bugfix: the html text in workflow mail containing special charcater (e.g. italian accented) is not encoded correctly
[mail] feature: show bcc recipients in view if present
[mail] Implement scheduled mail on NethServer through Dovecot special login user*vmail and unique password. If setting "nethstop.vmail.secret" is present, use Dovecot method with this password.
[mail] Bug: Forwarding an email with eml as attachment does not include the original eml text (e.g. Italian PEC)
[mail] Bug: import ics from a normal ics attachment on click, even if not attached as an ical request (e.g. Nethesis room invitation)
[mail] Bug: ics file with non standard content type "text/icalendar" does not show the "text/calendar" icon (e.g. Nethesis room invitation)
[mail] Bug: ics file missing request fields are not imported (e.g. Nethesis room invitation)
[calendar] Fix ical daily recurrence import bug
[contacts] Parent customers are now shown in company combo
[tasks] bugfix: encode special characters in workflow mails
[mail] bugfix: missing attachments when trying a send again after receiving a transport error on send (e.g. missing recipients)
[mail] bugfix: internal exception while downloading all attachments as a zip file, but some files have exact same name, causing unusable or partial zip file

sonicle-webtop-services:

- Added general service to monitor devices sync status and sen alert in case of problems
 - Changed tolerance unit measure (to days) int sync devices feature
 - [fix] Feedback window height in FF
 - [fix] Added check on system setting (main.profiledata.editable) when saving Personal info
 - ldap AD admin context uri corrected against new AD authentication mech
 - Added auth logging (login, authentication, logout)
 - Added internetDomain info in admin usercombo
 - Add httpSession to auth_logs table
 - HTMLEditor now features a "Preformatted" font
 - Bugfix: while adding recipients on recipients grid (e.g. new email), selecting from the auto suggestion with the return key, does not automatically start edit on next empty recipient.
- [core] Bugfix: while adding recipients on recipients grid (e.g. new email), selecting from the auto suggestion with the return key, does not automatically start edit on next empty recipient.

sonicle-webtop-webtopadmin:

- users list of ldapAD fixed with login column=sAMAccountName
- enabled multiple grid selection of users
- remove action possible on multiple users
- added enabled / disabled action, also for "unmanaged domains", allows for remove / default-create of selected users from webtop users list
- enable button available also for managed domains

sonicle-security:

- support for AD with custom single or multiple ou , through uri params (winserver:389/ou=mygroup)
- correctly authenticate through filter =
"(&(sAMAccountName=%n)(objectClass=user)!((UserAccountControl:1.2.840.113556.1.4.803:=2)))" then get access to cn for initialization of username

sonicle-webtop-addons:

- New option to disable dialog of client during send to webtop
- [assistant] new option to reset assistant as default

- [assistant] parameter do delete message in drafts
- new setting main.addons.url allows enabling of addons downalod from external urls, without distributing the addons jar file - if setting is present and not empty takes precedence over the jar in any case.

sonicle-commons:

- New classes using Apache POI package for streaming import of xlsx and xls (low memory footprint during import)

Upgrade to upstream release z-push 2.2.8 with backend revision 0017

Changes:

[new] Adding management of ldap domains Windows

NOTE:

To implement this feature: *Implement scheduled mail on NethServer through Dovecot special login user*vmail and unique password.*
to do this insert in the database:

```
insert into settings values ('nethtop.vmail.secret', 'password', true);
```

#4 - 04/15/2016 10:35 AM - Giacomo Sanchietti

- Description updated

#5 - 04/28/2016 04:37 AM - Giacomo Sanchietti

- Description updated
- Category set to nethserver-webtop4
- Status changed from NEW to TRIAGED
- Target version set to v6.7
- % Done changed from 0 to 20

#6 - 05/11/2016 06:11 AM - Giacomo Sanchietti

- Description updated

#7 - 05/11/2016 06:19 AM - Giacomo Sanchietti

- Status changed from TRIAGED to ON_DEV
- Assignee set to Giacomo Sanchietti
- % Done changed from 20 to 30

Also the package will be split to avoid disk space and bandwidth consumption.

New packages:

- webtop4-core: core implementation, should change frequently
- webtop4-libs: dependencies, should change once in a while
- webtop4-zpush: z-push implementation, should change once in a while
- nethserver-webtop4: configuration for NethServer, should change along with webtop4-core

#8 - 05/11/2016 06:21 AM - Giacomo Sanchietti

- Subject changed from WebTop: upgrade to upstream release 0384 and upgrade to upstream release z-push 2.2.8 to WebTop: upgrade to upstream release 0405 and upgrade to upstream release z-push 2.2.8

#9 - 05/11/2016 08:52 AM - Giacomo Sanchietti

- Status changed from ON_DEV to MODIFIED
- % Done changed from 30 to 60

#10 - 05/11/2016 09:07 AM - Giacomo Sanchietti

- Status changed from MODIFIED to ON_QA
- Assignee deleted (Giacomo Sanchietti)
- % Done changed from 60 to 70

Packages in nethserver-testing:

- webtop4-libs-1.1.3-1.ns6.noarch.rpm
- webtop4-zpush-1.1.3-1.ns6.noarch.rpm
- webtop4-core-1.1.3-1.ns6.noarch.rpm
- nethserver-webtop4-1.1.2-1.3.gff9682e.ns6.noarch.rpm

Test case 1

- Install the old release
- Update to the new release:

```
yum --enablerepo=nethserver-testing update nethserver-webtop4
```

- Check webtop is still running

Test case 2

- On a clean machine, install the package

```
yum --enablerepo=nethserver-testing install nethserver-webtop4
```

- Check webtop is running

Test case 3

- Access webtop using a Windows machine
- Try to download Windows integration program (webtop.exe)
