

## NethServer 6 - Bug #3387

### Openvpn n2n not working after restore

05/05/2016 10:40 AM - Filippo Carletti

<b>Status:</b> CLOSED	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>

<b>Category:</b> nethserver-openvpn	
<b>Target version:</b> v6.7	
<b>Security class:</b>	<b>Resolution:</b>
<b>Affected version:</b> v6.7	<b>NEEDINFO:</b> No
<b>Description</b>	
<p>Problem: after restore to new system, a previously configured net2net openvpn worked only in one direction (from client to server). The issue was a missing ccd file. It should have been created after restore calling the /etc/e-smith/events/actions/nethserver-openvpn-net2net action. Workaround: edit the client configuration on the server or run the action.</p>
